Wheelmen and Horses.

"The World" Wants This Vexed Question Decided.

It Is Said that Daly Will Retire Crasshapper Rearing The Keft Tammany.

A most interesting test of the relative speed and endurance of the blcyclist and the thoroughbred horse is proposed by "The World." It is argued by many turfmen that the thoroughbred of to-day is inferior to the thoroughbred of the days when Ten Broeck, Lexington, Felloweraft and other great horses ran races of three and four miles. It is feel, aming the built more for speed than stamina tenden. and that he won't go a distance of ground.

Shrewd turfmen, however, say that this is not so, and they point to the four-mile race at Sheepshead Bay last Fall, where Demuth and Tea Tray ran four miles in 7.20, which was only one-quarter of a second behind Lexington's record of preparation, and it is a certainty that the Carried Among the Refugees on St. old records could be beaten by the thoroughbreds of the present period.

Bicyclist Meintjen's record for twenty seconds to the mile. Whether a horse probably occur. mile for the full distance and beat out the bicyclist is the question which "The World" wants decided.

The contest would be a first-class test of the endurance of the thoroughbred, by "The World."

Complaint is made that the match race at Guttenburg was not timed correctly. Matt Byrnes is quoted as saying that he was in the infield and timed the race better than 2.06. Other horsemen corroborate him. Jimmy McCormick and J. B. Dyer were the official timers at the match. They are certainly not novices. In fact, their experience should make them experts, and it is more than probable that their time is as correct as any one could have made it.

Harris Olney, the ex-jockey, was thrown from his carriage while driving from the Guttenburg track on Saturday and had his skull fractured. He was found on the Huckensack road. It is feared that he will not recover. Olney was a good jockey some years ago, and was at his best when riding for Pierre Lorillard. He rode Pontiac when that horse won the Suburban.

There should be some integer.

tion. Helen Nichols and other fast ones are elizible.

The Fordham Handicap, at a mile and five-sixteenths, will be run on Wednesday. Byrnes may relent and send Tammany for it. Rudeigh is also eligible and a great race would be seen.

The Deumow Stakes for two-year olds, and the Consolation Stakes for all ages, are the features for Thursday.

The Williamsbridge Handicap will bring out the three-year-olds on Friday, and the Champagne Stakes and the Wakefield Handicap will furnish excellent contests on Saturday.

It would have been a good thing to try the electric light scheme in the last race, at the hill top on Saturday. As it was, the race was run in darkness, and unless one was very close to the finish it would have been absolute folly to try to place the horses.

Starter Caldwell fined every jockey in the fourth race Saturday, and Hennes-sey the heaviest of all.

> And He Complains of His Pains Day and Night,

KISSENGEN, Oct. 2.-As is usual in the case of aged convalencents it is hard to determine from one day to another what Prince Bismarck's condition will be. It is certain that his last illness has left permanent marks upon him, and it is doubtful if he will ever recover his usual health and strength.

His progress towards recovery has been again retarded by the entire failure of his appetite. He will now scarcely touch food.

The reports that he had suffered an attack of paralysis are borne out by the fact that his right hand is apparently completely useless. He salutes with his left hand, and is even compelled to sign his name with that hand.

He has aged in looks very much since his sickness, and in appearance is very decrepit. It is impossible for him to enter or leave his carriage without assistance, and whenever he goes driving two manservants help him in and out of the vehicle. The Prince complains that he s afflicted with pain day and night. iltogether he is much broken.

Count Herbert Bismarck, the Prince's ion, says that his father's illness was brought on by his taking a half hour's bath when the temperature was 28 de-
